Index of Table

Table 1-1 International comparison of China's population growth in 2000 14
Table 1-2 Change of employment structure of China's labor force from 1994 to 2000 15
Table 1-3 Comparison of medical infrastructure facilities between China and high-income countries in 2000 15
Table 1-4 Comparison of China's per capita output of major products with world average level 16
Table 1-5 Sectors contributing to the added value of China's tertiary industry 16
Table 1-6 Changes of development gaps between the east, the middleand the west region of China 17
Table 1-7 Ratio changes in primary and medium products and industrial finished products in China's import and export products 18
Table 1-8 The structure of China's consumption of primary energy 18
Table 1-9 Major indicators of China's energy consumption in 1994 and 2000 18
Table1-10 China's major transportation means 19
Table 1-11Total passenger traffic (TPR) change in China 19
Table 1-12Total freight traffic change in China 20
Table 1-13Consumption of chemical fertilizers on farmlands in China 21
Table 1-14 Number of major livestock on hand in China 21
Table 1-15Summary of China's National Circumstances in 1994 23

Table 2-1 1994 national greenhouse gas inventory of China (Gigagram) 27
Table 2-2 1994 greenhouse gas emissions in CO2 equivalent 28
Table 2-3 Carbon dioxide emissions from industrial processes in China in 1994 28
Table 2-4 1994 greenhouse gas inventory of land-use changes and forestry sector in China 29
Table 2-5 Methane emissions in China in 1994 30
Table 2-6 Methane emissions from agriculture sector in 1994 30
Table 2-7 Methane emissions from waste treatment sector in China in 1994 31
Table 2-8 Nitrous oxide emissions in China in 1994 31
Table 2-9 Nitrous oxide emissions from agriculture sector in China in 1994 32

Table 3-1 Changes of surface air temperature and precipitation in China under 2×CO2 scenario 37
Table 3-2 Changes in future surface air temperature and precipitation in China projected by GCMs under four GHG emissions scenarios 37
Table 3-3 Water resources of the Yellow River, Huaihe and Haihe rivers and the reduction of their runoff into the sea 38
Table 3-4 Statistics on the changes of glaciers in west China since the Little Ice Age (LIA) 39
Table 3-5 Projection of the sea level rise in five coastal areas in China 45

Table 4-1 Some of China's laws related to climate change 53
Table 4-2 Some technologies and projects helpful to the greenhouse gas emission and encouraged by Chinese government 54
Table 4-3 Industrial policy documents issued by the State Council of China 55
Table 4-4 China's economic incentive policies for sustainable development 56

Table 4-5 China's energy planning and programming 58
Table 4-6 Policy and regulations for developing cogeneration 60
Table 4-7 Rules and regulations on energy-saving management issued in China 65
Table 4-8 Documents on energy-conservation technologies and products issued by relative Chinese government departments 67
Table 4-9 Policies and measures concerning building-material industry 69
Table 4-10 Comprehensive energy consumption per unit product of some major building Table material products [1990-2000] 69
Table 4-11 Relevant policies and measures of iron and steel industry 70
Table 4-12 Changes of unit energy consumption of the main chemical industrial sub-sectors (1990-2000) 71
Table 4-13 Relevant regulations and standards of the chemical industry 71
Table 4-14 Changes of per unit energy consumption of China's main communications and transportation sectors [1990 -2000] 74
Table 4-15 Relevant policies, rules and regulations adopted by the authorities of communications and transportation to improve the energy efficiency and energy saving 75
Table 4-16 Changes of land areas in forestry sector 78
Table 4-17 China's ecological forest projects 79
Table 4-18 China's municipal waste treatment facilities [1994 - 2000] 81
Table 4-19 Relevant regulations and rules for municipal waste treatment 81
Table 4-20 Some technical policies and standards for municipal waste treatment 81

Table 5-1 Types of the meteorological observation stations under China Meteorological Administration and the items of observation 84
Table 5-2 ypes of China's marine observation stations and the items of observation 85
Table 5-3 Types of the ecological stations in China's Ecosystem Research Network and the observation items 85
Table 5-4 China's meteorological satellite series 86

Table 6-1 Survey Results on sources of information related to climate change issues 93

Table 7-1 Some Needs for Environmentally Sound Technologies in China 99
Table 7-2 Some of technology needs for adaptation to climate change in China 100
Table 7-3 Some of technology and equiment needs for climate systematic observation in China .. 101
Table 7-4 Main areas of capacity building 102
